

CATSKILL RECREATION CENTER

Arkville, NY

The Catskill Recreational Center is the vision of the Gould family and their desire to give back to a community that has supported them for 5 generations. The 19,400 SF family focused recreational center includes a competitive size swimming pool, locker room, community meeting spaces, fitness center and lounge. IPD was tasked with designing infrastructure that would minimize operating costs. We answered the call by designing a geothermal HVAC and pool heating system, a solar domestic water heating, a photo-voltaic electric generation system, energy recovery ventilation and LED lighting throughout.

CLIENT
Kingdon Gould

COST
\$4.8 M

COMPLETION
2015

KEY PROJECT ELEMENTS

- Geothermal HVAC System
- Geothermal Pool Heating
- Solar Domestic Water Heating
- Photo-voltaic Electric Generation
- Energy Recovery Ventilation
- LED Lighting
